

## Bigger and Smaller Numbers

Out of the following lists of numbers, find the biggest and smallest numbers.

E.g.

2 6 1 5

Smallest = 1  
Biggest = 6

---

Now try these examples:

1) 8 11 2 7

Smallest = 2  
Biggest = 11

2) 3 10 4 9

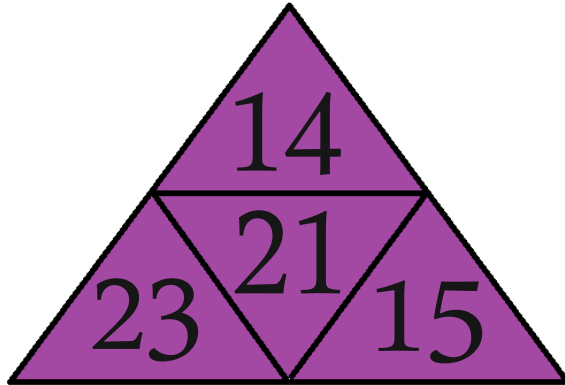

Smallest = 3  
Biggest = 10

3) 12 17 19 20

Smallest = 12  
Biggest = 20

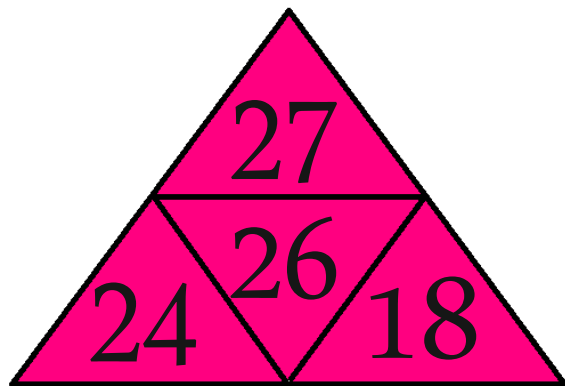

These questions are exactly the same, but the numbers are shown in a pyramid.  
Find the biggest and smallest numbers.

4)

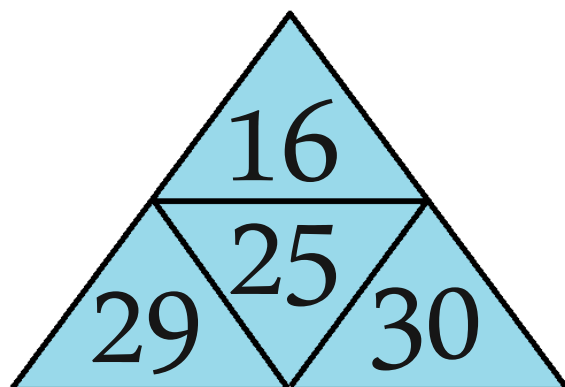

Smallest= 14  
Biggest = 23

5)

Smallest= 18  
Biggest = 27

6)

Smallest= 16  
Biggest = 30
