Bigger and Smaller Numbers 2

Out of the following lists of numbers, find the biggest and smallest numbers.

E.g.

8   11   2   7

Smallest = 2
Biggest = 11

___

Now try these examples:

1)

12   45   34   26
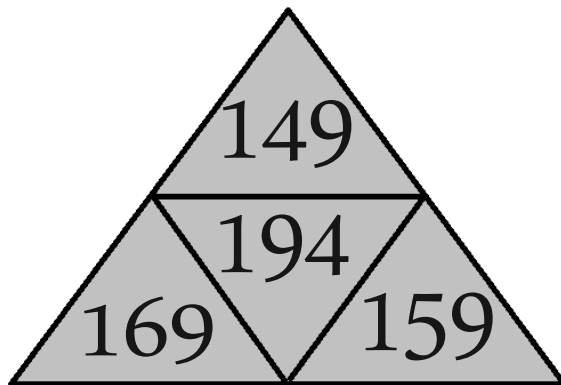

2)

73   52   39   48   22

3)

99   61   82   78   65

These questions are exactly the same, but the numbers are shown in a pyramid.
Find the biggest and smallest numbers.

4)

671
761
546   801

5)

149
194
169   159

6)

509
513
511   501
