

Dinosaurs are everywhere! We're going to count them in two's, fives and tens.

Two's

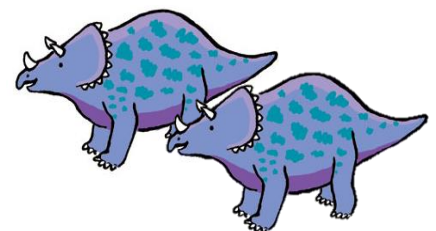

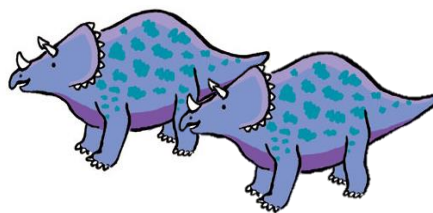

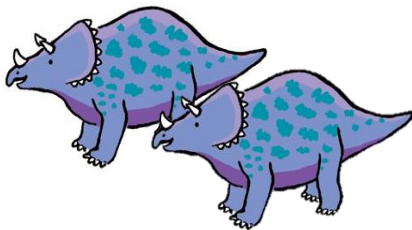

These dinosaurs are in twos, how many can you count?

2

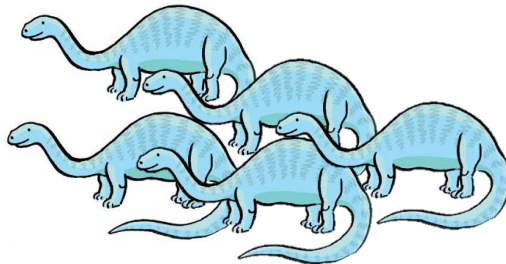

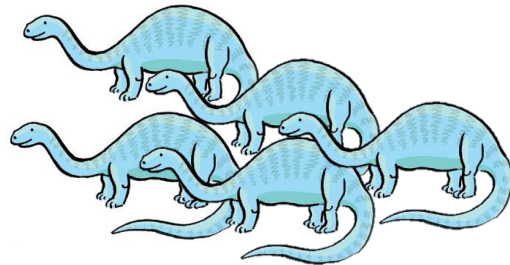

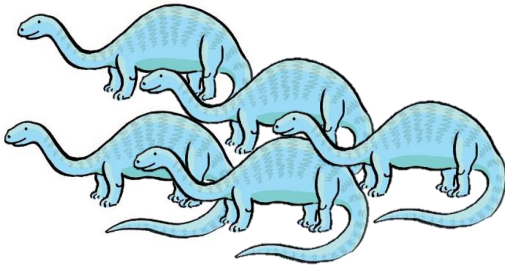

10

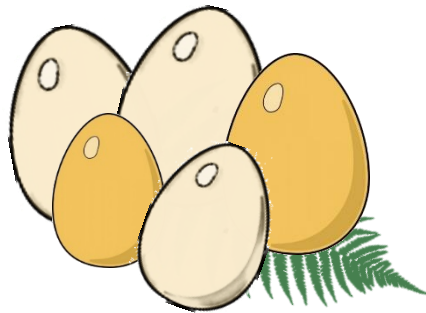

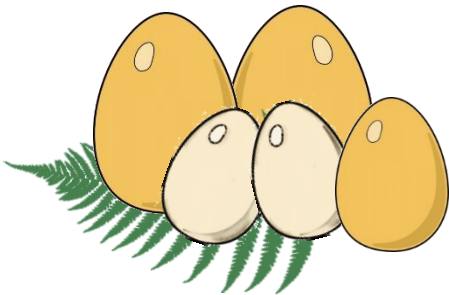

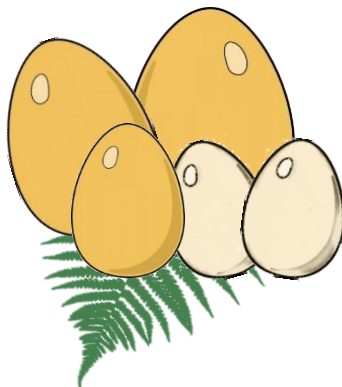

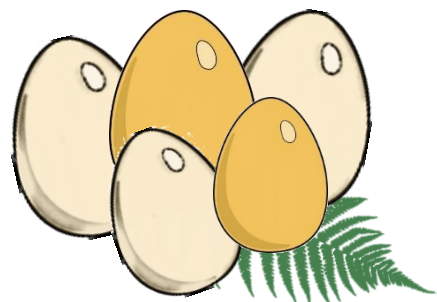

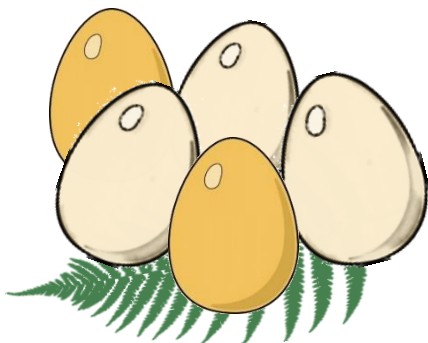

Five's

How many dinosaurs are there? Count by fives and write the answer in the box.

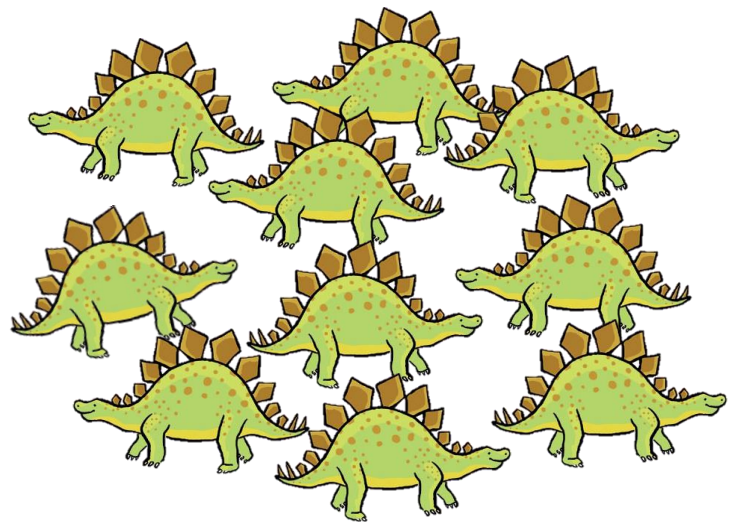

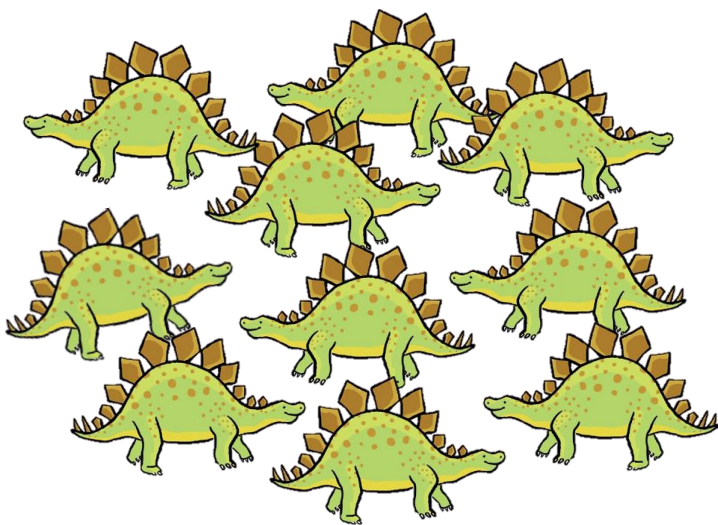

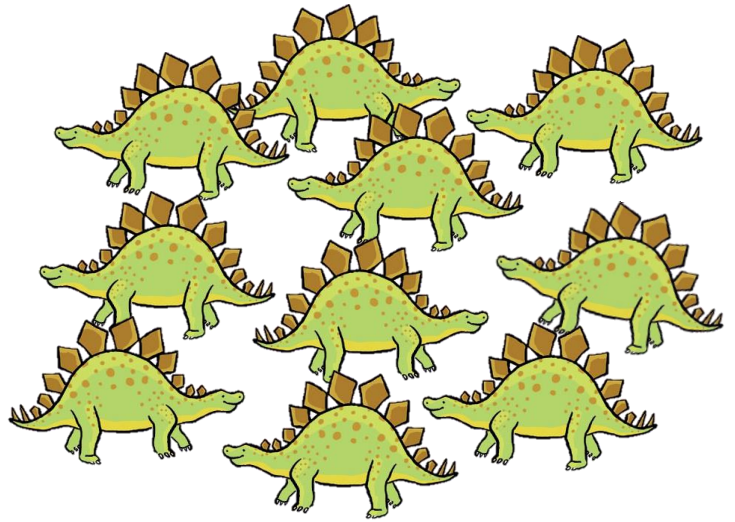

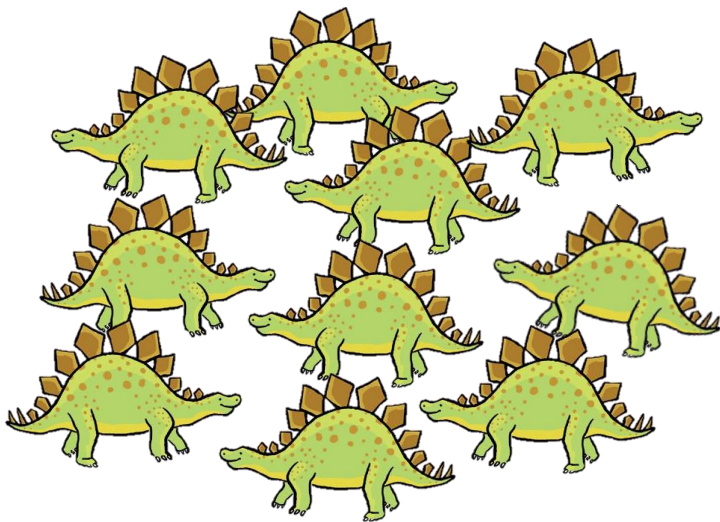

Now do the same with these dinosaur eggs. Circle the correct answer.

**15****20****25**

Ten's

Each group has ten dinosaurs in it. Count by tens and circle the total number of dinosaurs.

50
