

Its puzzle time...literally! Have fun filling in all the missing pieces.

Puzzle 1

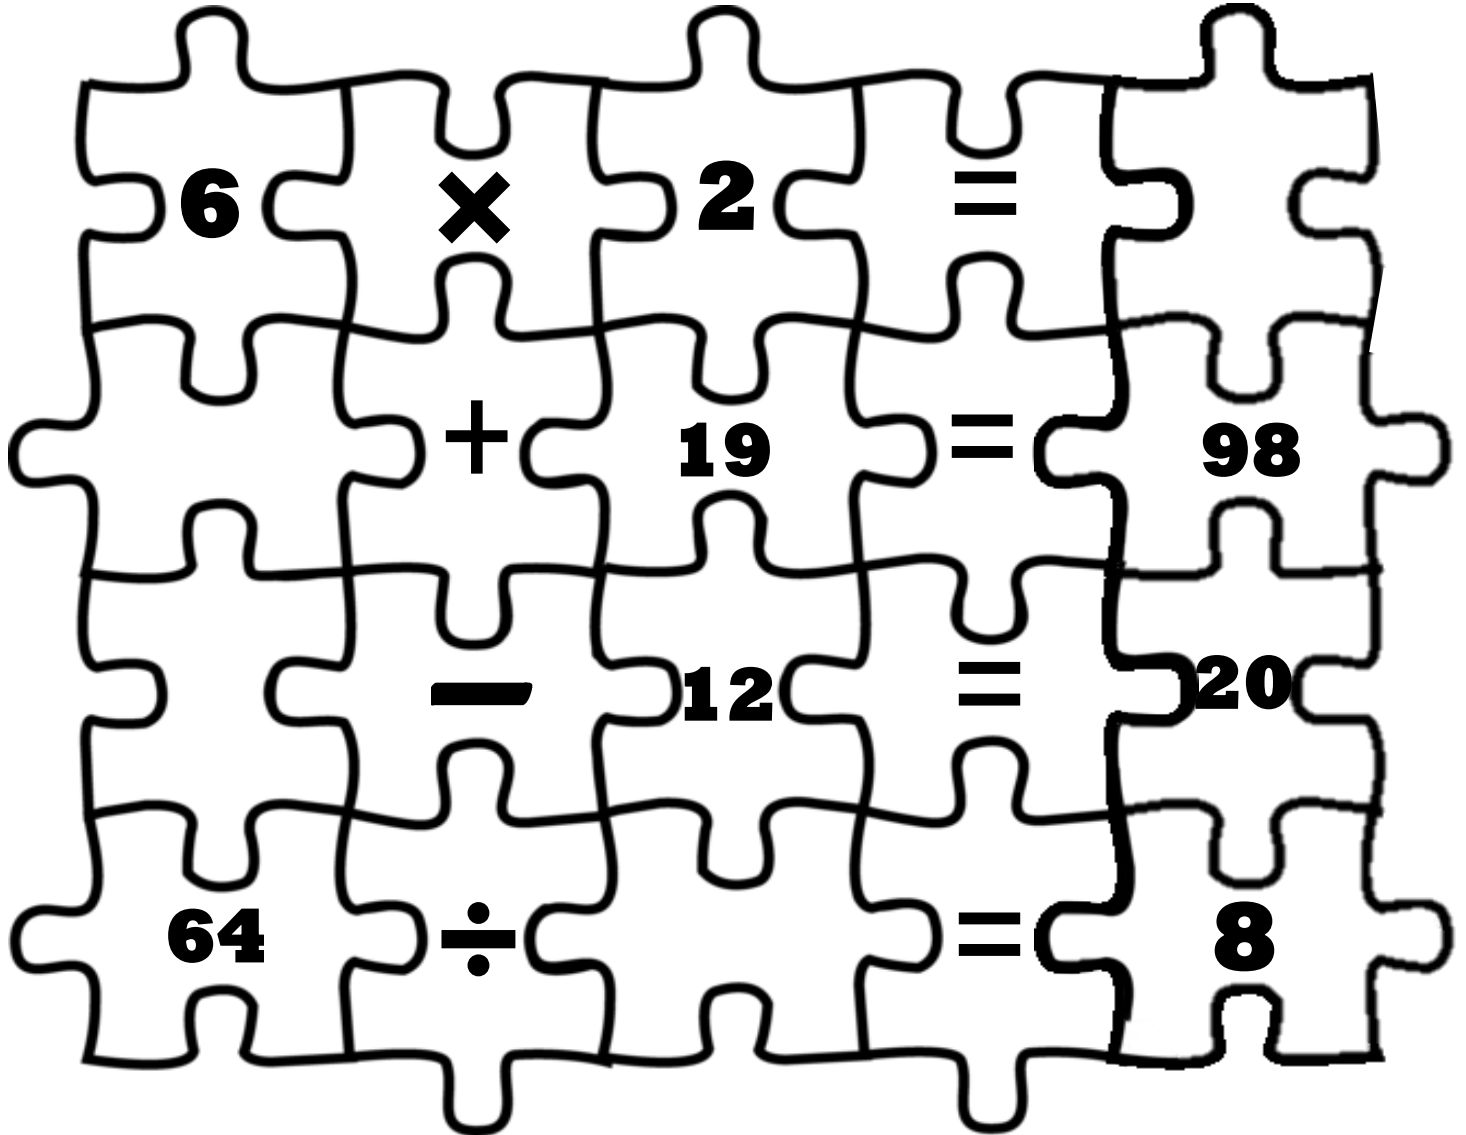

Find the operation that completes the jigsaw sum. Pick the right piece from the bottom and colour in where it goes.

19	7	=	26
6	5	=	30
12	4	=	3
28	9	=	4

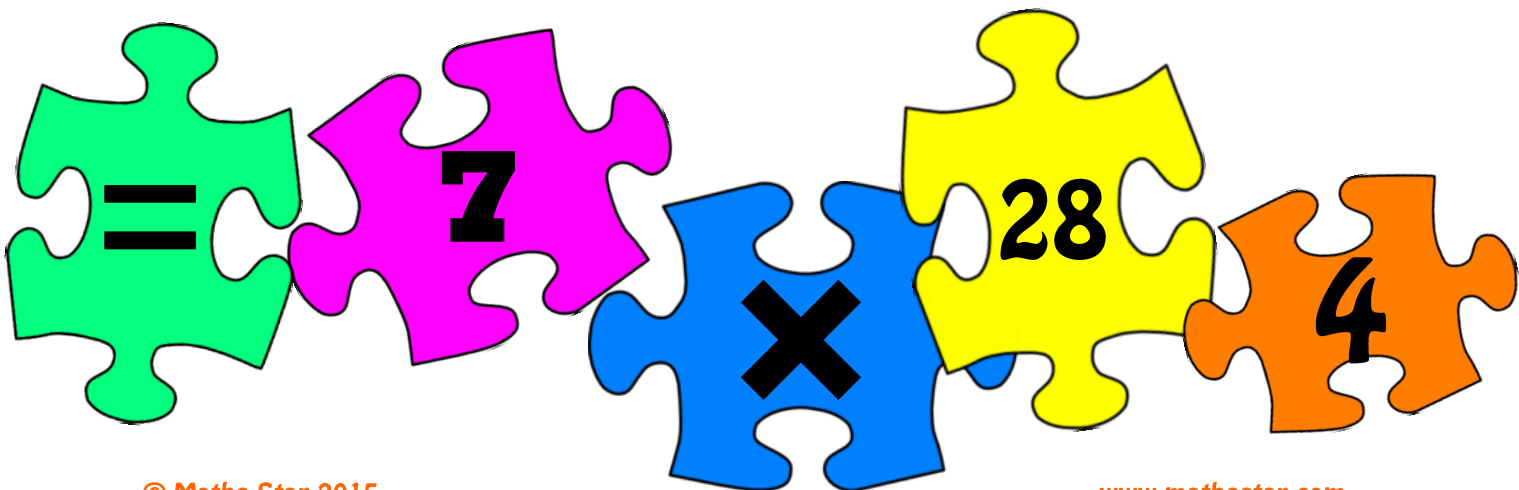

Puzzle 2

This time the pieces are missing. Work out which number should have completed each sum and write it on the blank puzzle piece.

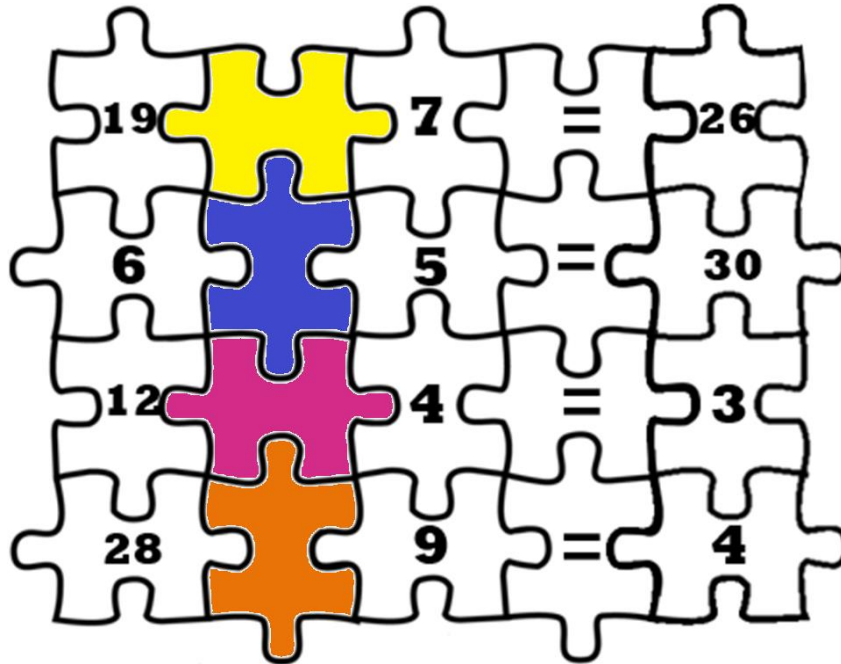

Bonus Question This five piece sum needs to be put together in the right order. Can you solve the puzzle?
