

Odd and Even

Find out which of the following numbers are odd and even.

Some of the questions are sums; work out if the answers are odd or even.

E.g.

$$4 = \text{Even}$$

$$3 + 2 = 5 = \text{Odd}$$

Now try these examples:

1) 47

2) 25

3) 60

4) $4 + 4$

5) $2 + 9$

6) $7 + 3$
