

## Odd and Even

Find out which of the following numbers are odd and even.

Some of the questions are sums; work out if the answers are odd or even.

E.g.

$$4 = \text{Even}$$

$$3 + 2 = 5 = \text{Odd}$$

---

Now try these examples:

1)  $47 = \text{Odd}$

2)  $25 = \text{Odd}$

3)  $60 = \text{Even}$

4)  $4 + 4 = 8 = \text{Even}$

5)  $2 + 9 = 11 = \text{Odd}$

6)  $7 + 3 = 10 = \text{Even}$
